

NexAccess Global System Ltd

- Unified Access, Payments & Smart Infrastructure
- Focus Market: Nigeria & Africa
- Target Clients: Banks, Hospitals, Malls, Enterprise Facilities

The Problem

- Fragmented access control and payment systems across institutions
- Outdated and manual infrastructure in critical sectors
- Security, compliance, and efficiency challenges at scale
- Lack of centralized, future-ready infrastructure platforms

The Solution

- Unified platform integrating access control and payments
- Centralized software dashboard
- Scalable and compliant deployments
- Designed for enterprise and regulated environments

Products & Services

- Access control systems (LPR, smart gates, biometrics)
- Contactless payment-linked access solutions
- Smart parking and facility management
- System integration, maintenance, and support

Target Markets

- Banks and financial institutions
- Hospitals and healthcare networks
- Shopping malls and commercial centers
- Enterprise campuses and smart infrastructure projects

Business Model

- Hardware sales and leasing
- Software licensing and platform integration
- Recurring maintenance and support contracts
- Long-term enterprise service agreements

Competitive Advantage

- Multi-sector platform approach
- Hardware, software, and services in one ecosystem
- Strong alignment with regulatory requirements
- Built for African infrastructure realities

Partnership Strategy

- Hardware OEM manufacturers
- Banks and payment processors
- Infrastructure operators and system integrators
- Local deployment and support partners

Growth Strategy

- Pilot deployments with anchor clients
- Strategic partnerships in banking and healthcare
- Geographic expansion across Africa
- Continuous platform enhancement

Investment Opportunity

- Seeking strategic partners and growth capital
- Funds allocated to platform development and deployments
- Focus on scalable, compliant infrastructure growth
